

## Clark Forklift Part

Clark Forklift Parts - Currently, there are at least 350,000 Clark lift trucks performing globally, and upwards of 250,000 in service in North America alone. With five major lines across the globe, Clark is proud to be one of the most expansive companies in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, handles more than 120,000 specific parts intended for 20 distinctive models of lift trucks and automated equipment. Your local Clark Supplier is your total source for availability of all your components needs provided by Clark Totalift.

Clark's extraordinary Parts Distribution Stores are conveniently located in Louisville, Kentucky, which serves both their customers and dealers in North America, and Changwon, South Korea, which handles their Asian dealers and consumers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing companies. Motivated to provide the highest level of value and service to our users, Clark remains on the leading edge when it comes to improving productivity and benefiting performance.

Internationally, Clark has one of the most amazing dealer support networks. With over 550 locations worldwide, supplier representation in over 80 countries and 230 locations in North America, their high level of commitment to their customers predominates the material handling industry.

By revolutionizing the operator restraint system protection feature, Clark proudly remains a leader of refinement in the industrial equipment and automated lift truck industry. This exceptional dedication to safety is now a customary feature on every lift truck.

Clark's continual mission to possess the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift maker across the globe to be certified with the globally approved quality standard ISO 9001 for each and every one of their production facilities. Furthermore, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be prepared for any environmental limitations, thus placing them in a dominant industry position.

Clark has chosen the very economical and advantageous structure of "Lean Production" for its assembly plants and application of resources. This structure was established to acknowledge the most efficient approaches of manufacturing facility stewardship and ensuring maximum efficiency. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

By working collectively, Clark's product suppliers and engineers communicate towards enhancing product effectiveness while minimizing costs. The contemporary value engineering agenda combines progressive product improvement and delivers superior customer support and service within the industry.
