

Meritor Part

Meritor Part - The Meritor Company is a leading international dealer established upon one hundred years of custom of service and quality. Meritor focuses on integrated systems together with various modules and parts to the original machinery makers and aftermarket equipment within the industrial and transportation sectors.

Meritor prides itself in the company's distinctive energy and feels that this energy contributes to their competitive advantage within the international operations. The business values all their clients and wishes to ensure their success while anticipating their various needs. Meritor starts with a tradition that values diversity of individuals and their broad thought processes. Operating in 19 countries and hiring over eleven thousand two hundred individuals, Meritor promotes innovation and collaboration among a team of knowledgeable experts.

By just hiring future focused workers, Meritor strongly feels these top-caliber people would be able to rapidly get used to to changing environments and demonstrate the commitment and performance considered necessary to reach results in the competitive materials handling business. The company empowers their teams to make sound business decisions to be able to enhance the overall success of the business. In return, Meritor offers their employees different chances for professional and personal growth.

The Advanced Engineering team is on the forefront of systems engineering and components. This consists of axles, drivelines, suspension and braking systems for heavy duty and medium trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is growing. They launched a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives which represent the entire Asia Pacific region. This team is also responsible for supporting the needs of all their global engineering employees.

The Quality team at Meritor is a customer-focused and dynamic group who is dedicated to ensuring optimum progress at their aftermarket distribution facilities and production plant that are situated on 5 continents and in 19 countries.

The supplier development network is specifically situated to support new business growth. Regional teams are supported by international centralized specialties, initiatives and quality systems in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program promotes a data-driven, fact-based approach to decision making in each and every part of the business. The DFSS or Design for Six Sigma ensures product reliability within every region. The team is also comprised of transactional Green Belts who use Six Sigma tools to business processes and implement lean techniques.
